Re: Offer to freely transfer GOFFICE.COM to Google for use with 'Google Office'

Dear Messrs. Page, Brin & Schmidt:

I founded Silveroffice, Inc., the makers of gOFFICE.com, on 3/3/03 with the vision of creating an online office suite.

I saw the news of Google Spreadsheets today, and it appears Google will soon offer an online office suite comprised of that product and Writely's word processor.

I am writing to offer to freely transfer the GOFFICE.COM Internet domain name to Google for use in branding Google's online office suite.

Eric, I believe you know Eric Jensen, my friend and attorney for the last 10 years, as he attended Siebel board meetings with you. You may contact him for a reference. His email is ejensen@cooley.com.

Thank you for your attention.

Sincerely,

Silveroffice, Inc.

Kevin L. Warnock
